Vilnius was such an amazing city!

Filled with so many interesting things!

So, with adventure in mind...

I started exploring!

From the food, history and nature around...

Everything was amazing!

Vilnius quickly became...

One of my favorite cities ever!

As I returned to my country...

I'm sure, I'll revisit Vilnius soon!

And in the studio...

I was lucky to have met so many amazing people!

And so many amazing teachers!

This helped me level up as an artist and more!

I even learned how to kickflip a skateboard!

While im super grateful for the Erasmus experience...

I'm even more grateful for the chance to work for the company now!

I finally got the chance to get my dream job all thanks to this internship!
